

Carbon Reduction Plan 2026

Commitment to achieving net zero by 2045

Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline year: 2023	
Additional details relating to the baseline emissions calculations:	
30.7 tCO ₂ e	
Baseline year emissions:	
Emissions	Total (tCO ₂ e)
Scope 1	1155
Scope 2	30.7
Scope 3 (included sources)	620
Total emissions	1805.7

Current emissions reporting

Reporting year: 2025	
Emissions	TOTAL (tCO ₂ e)
Scope 1	1155
Scope 2	19.4
Scope 3 (included sources)	348
Total emissions	1522.40

Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next five years to 9.0 tCO₂e by 2031. This is a reduction of 71%

Carbon reduction projects

Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 2023 baseline. The carbon emission reduction achieved by these schemes equate to 11.3 tCO₂e, a 37% reduction against the 2023 baseline and the measures will be in effect when performing the contract. This reduction has been achieved through a combination of on-site renewable energy generation (solar PV supplying 22% of electricity demand), full LED lighting upgrades with motion sensors, and investment in energy-efficient A-rated machinery.

Future carbon reduction initiatives

In the future we hope to implement further measures including:

- Continued Staff engagement & Training
- Increased use of digital documentation
- Increased use of environmentally responsible and ethically sourced materials
- Expanding recycling initiatives with staff
- The continuation of monitoring for viable electrical vehicles

Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹³ and uses the appropriate government emission conversion factors for greenhouse gas company reporting.¹⁴

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.¹⁵

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of Sandwich King:

Francesca Bracken Date: 21st May, 2026
